FULL STACK DEVELOPER

Solution-oriented full stack developer with ability to learn, collaborate and communicate in rapidly changing environments. Worked through 1000+ hours of different projects. Eager to tackle web development challenges to achieve lasting impacts on user experience.

WORK EXPERIENCE

Redstone(Remote)

Junior Front End Developer

2023 - Present

Accomplishments:

- Created, tested and maintained various web pages, elements(re-designing and updates) to meet project requirements.
 - Collaborated with UX designers to translate wireframes and prototypes into functional user interfaces.
 - Pair programmed with 4 developers and reviewed the team's code to provide additional perspective and catch previously missed errors to improve user experience and ensure high-quality design and cross-browser compatibility.
 - Implemented accessibility standards and optimised website layouts for screen readers to ensure the website is accessible to users with disabilities, resulting in a 10% increase in website accessibility scores.
 - Created and maintained technical documentation, ensuring seamless knowledge transfer and collaboration between team members to increase team efficiency and productivity.
-

PROJECTS

Taskify

GitHub (<https://github.com/Rustam-Aliyev889/taskify-2nd-att>)

Developed Task manager platform which is aiming to help a team to manage their daily routine and collaborate more effectively.

Accomplishments:

- Developed and tested interfaces, page layouts, and graphics, while ensuring compliance with cross-browser compatibility and Web Standards guidelines
- Achieved 99% of performance score.
- The app has been made to be fully responsive on various screen sizes.
- Developed back-end side of the project using Python, Relational Database Management System and Flask.

Car Quiz

<https://github.com/Rustam-Aliyev889/Quiz>

The project is a car related quiz. It consists of 13 questions and 4 answers for each question. You have 15 seconds for each question. The goal of the quiz is to test your knowledge about cars in addition to find out what car you should be driving. :-)

Accomplishments:

- Designed and developed an interactive layout, using HTML, CSS and JavaScript to generate an improved user engagement and ensure high-quality design and cross-browser compatibility.
- Identified and troubleshooted front-end performance issues to reduce website errors and improve website stability.
- Enhanced the usability of the website by applying the latest accessibility standards and best practices.
